

## Archelon Walks on Air With New iPad® Enclosure Design

**San Diego, California – January 7, 2014** – Archelon Enclosures, a leading manufacturer of iPad® and tablet enclosures for the retail and hospitality industries, is keeping pace with dynamic technology with the introduction of its sleek iPad Air® enclosure.

“We strive to offer solutions that empower the industry to stay on the cutting edge.” said Debi Besmer, Managing Partner for Archelon Enclosures. “For example, the iPad Air® enclosure, as well as all Archelon products, are perfect for omnichannel use in the retail environment as more and more merchants are catering to today’s connected consumer.”

Besmer will be attending the National Retail Federation’s 103<sup>rd</sup> Annual Convention at the Jacob K. Javits Convention Center in NYC on January 12 to 15, and the iPad Air enclosure will debut at the show.

Archelon’s iPad Air enclosure is custom designed to fit the Apple device’s 9.7-inch display and 7.5-millimeter width. It includes the same exceptional security and protection as its predecessors, the Archelon EXO. Users can choose from wall mount, table top, secure flip and floor stand designs. The enclosure includes a lock and key frame that keeps the tablet secure but accessible as needed. Its tri-axial swivel allows movement in multiple planes: up-and-down, side-to-side, as well as landscape and portrait views.
