

Archelon Enclosures to Show Hospitality Industry Leaders How to Protect Mobile POS Technology Investments at IHMRS

iPad® and tablet enclosures will be featured as a must-have solution for restaurants and hotels

San Diego, California – November 4, 2013 – Archelon Enclosures, a leading manufacturer of iPad® and tablet enclosures, will showcase their complete product line from November 9th through 12th at the 2013 International Hotel, Motel and Restaurant Show (IHMRS) at the Jacob K. Javits Center in New York City. Each year, IHMRS serves as a global marketplace for industry professionals to exhibit emerging trends and technologies.

“Mobility is a hot topic in hospitality right now,” said Archelon Enclosures’ Managing Partner Debi Besmer. “The XTR and EXO solutions are truly revolutionary because they not only provide physical protection for the tablets themselves, but they also secure their financial investment.”

With the added protection of enclosures, restaurants can leverage mobile POS to expand their service to tableside as well as outdoor venues. This increases customer service and sales opportunities, as well as accelerates table turnover. Hotels can utilize them to bust crowds at the concierge desk and expedite the check-in process. Guests can swipe their credit or debit cards and give their signature while they wait in line. Streamlining these processes allows for quick customer service and, as a result, satisfied customers.

To find out how Archelon’s enclosures for the iPad and tablet devices can help you do business more efficiently and profitably, visit them at booth #1238 at IHMRS or www.archelonenclosures.com.
